

LED Flat Spot Light 6

Version 3: 42 leds - constant voltage

It is a flat LED fixture designed to be mounted directly into the drywall. It does not require additional HOUSING and it is rated for direct contact with insulation (IC TYPE). It has a cast aluminum casing and high quality acrylic and diffuser.

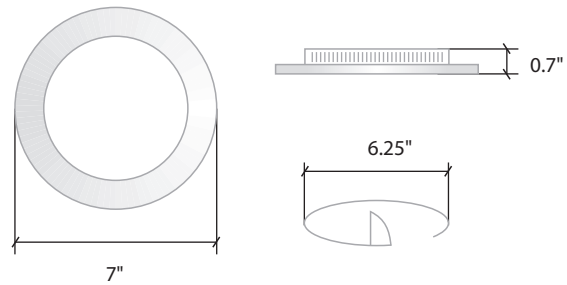

Advantages:

- Remote driver can serve many units.
- Energy Saving up to 90% in comparison with traditional light sources
- Flat shape allows installation on ceilings and walls
- Eliminates the need of installation of pot housings and expensive AC lines
- Samsung LEDs guarantee the best quality, long life span and great lumen output

Accessories - Power Supply 110VAC in set
Single Driver (CC)

LED   
12.5W = 100W or 2x18W

Technical Specs

Model	CPRFP6CC42
Casing color	silver, white
Current	110VAC
Power	12.5W
Frequency	60Hz
Safety Certification	II
IP Code	IP20
